Kaushik Ladumor

Full-Stack AI Engineer
kaushik.ladumor04@gmail.com · +91 84888 23806 · LinkedIn · GitHub · LeetCode

OBJECTIVE

Full-Stack Developer with hands-on experience in React, Node.js, Python and PostgreSQL, building production-grade web applications. Experienced in integrating LLM-based features into real products, and aiming to grow as a Full-Stack AI Engineer who delivers secure, scalable and intelligent software.

EDUCATION

Ahmedabad University — B.Tech in Computer Science & Engineering Sept 2022 – May 2026
School of Engineering and Applied Science

EXPERIENCE

Aerocraft Engineering (I) Pvt. Ltd. — Software Developer Aug 2026 – Present

- Working as a Software Developer at Aerocraft Engineering (I) Pvt. Ltd., Ahmedabad, Gujarat, owning an HR module of a product-level platform.
- Developing frontend and backend features using React, Node.js, Python and PostgreSQL, from API design to user-facing workflows.
- Handling the module end to end, from requirements and design to development and integration.

Tagline Infotech LLP — React.js Trainee Jun 2026 – Jul 2026

- Completed a React.js Trainee internship at Tagline Infotech LLP, Surat, Gujarat.
- Gained hands-on exposure to React.js development within a professional team environment.
- Recognized for sincerity, dedication, and hard work, with a satisfactory performance review on completion.

PROJECTS

Mori — HRMS Platform Aug 2026 – Present

- All-in-one HR software where HR, finance and legal teams manage employees from joining to exit: employee records, shifts, attendance, leave and the exit process.
- Salary (payroll) calculation for India and USA using government and company rules, giving the same result every time for the same input, with support for loans, reimbursements, arrears and government reports.
- Hiring and growth: AI hiring and AI interview features with human review, promotion and pay checks before approval, and one performance review system in place of several old ones.
- Works with other platform modules (IT planning, Communication, CRM) through their APIs, and keeps each company's sensitive employee data on the company's own server.

ClothOra — Full-Stack E-Commerce Web App

- Built a full-stack MERN e-commerce platform with responsive UI using React.js and Tailwind CSS.
- Implemented OTP-based authentication, product catalog, cart, and order processing via RESTful APIs.
- Integrated Razorpay & COD checkout; managed images via Cloudinary with a complete admin dashboard.

Wanderlust — Travel & Stay Listing Web App

- Developed a travel listing and review web app using Node.js, Express.js, MongoDB, and EJS.
- Implemented OTP-based authentication and role-based access control using Passport.js and Nodemailer.
- Integrated Mapbox API for interactive geolocation-based property mapping across the platform.

SKILLS

- **Languages:** JavaScript (ES6+), Python, SQL, HTML, CSS
- **Frameworks & Libraries:** React.js, Node.js, Express.js, Mongoose, EJS, Tailwind CSS, Bootstrap CSS, Pandas, NumPy, Matplotlib, Seaborn
- **Databases:** PostgreSQL, MongoDB, MySQL
- **AI & LLM:** LLM Integration
- **Backend:** REST APIs, Authentication (OTP, Passport.js)
- **Tools & Platforms:** Git, GitHub, VS Code, Postman, Vercel, Render, Netlify
- **Data & BI:** Power BI, Excel, Data Cleaning, KPI Analysis, Data Visualization

CERTIFICATIONS

Delta 4.0 – Full Stack Web Development — Apna College Aug – Dec 2024
Certified by Shradha Khapra · Covers frontend & backend technologies
